Opis webinarium:

TED Talks are a regular feature of the My Perspective series. Meaningful, engaging and thought-provoking, they are an ideal candidate for practising language, especially the four skills. Equipped with solid vocabulary work, TED Talks appear comprehensive classroom tasks. But with little effort and good will, one can make the most of them by introducing minimum tweaks. In this webinar I will show such tricks-of-the-trade that maximize language exposure and production and that help learners in attending to some aspects of Matura.
